

Need Funding For Your Organization?

Call LAPA Fundraising Today!

Dear Colleague,

Are you serving medically underserved areas, or populations, and need to secure additional funding in support of your organizations mission? Do you want federal reimbursement rates that cover your costs?

If so, consider becoming a Federally Qualified Health Center (FQHC).

FQHCs, often referred to as Community Health Centers (CHCs), are nonprofit, community-directed health care providers. Being an FQHC gives your agency access to:

- Enhanced Medicaid & Medicare Reimbursement
- Federal Dollars to Implement the Affordable Care Act
- Malpractice Coverage
- Favorable Prescription Drug Prices
- Capital Investments

Our FQHC team has a strong record of winning designation for clients in the greater New York area.
